SUMMARY

Seeking opportunities to contribute skills and passion for web development ,Machine Learning projects and app development. Leveraging expertise in Dart, Python, JavaScript/TypeScript, C# and frameworks to deliver innovative solutions. Committed to continuous learning and staying updated to address real-world challenges.
Objective: create efficient, user-friendly solutions for organizational success.

EDUCATION

**Babu Banarasi Das University,
Lucknow, India**
Bachelor of Computer Applications
(Specialization in Data Science & Artificial
Intelligence)
2021-2024

SKILLS

- Mastery in weaving spells with React.js, Next.js, and Express.js for crafting web enchantments.
- Adept in the arcane arts of Flutter and React Native for conjuring cross-platform mobile marvels.
- Proficiency in harnessing the powers of MongoDB, Firebase, and SQLite for sculpting and safeguarding mystical databases.
- Possesses middling mastery in the ancient arts of Machine Learning & Deep Learning.
- Wields the enchanting tools of Tailwind, Figma, and Bootstrap to craft mesmerizing designs.

CERTIFICATIONS

- List of all certificate links and the corresponding drive folder for certificates.

PROFESSIONAL EXPERIENCE

Projects

Accomplished a range of projects, such as:

- A rating application utilizing Flutter, Google Maps API, and Firebase.
- A portfolio website constructed with Next.js and Tailwind CSS.
- A voice-responsive chatbot developed using Python, OpenAI API, and Google Cloud API.
- A real-time chat application employing Flutter, Express, Socket.IO, and SQLite.
- A web application for pizza delivery named CapPizza, incorporating React, Express, MongoDB, Node Mailer, and Stripe.
- An air quality monitoring application in real-time named AiroMap, created with React Native, Express, MongoDB, Node Mailer, Google SDKs, and IQAir API.
- A comprehensive e-commerce platform for VPS sales developed using Next.js/TypeScript, Prisma, Stripe, Cloudinary, and other tools. This platform includes functionalities such as product management, user authentication, and real-time data processing.

EXPERIENCE

1. **Software Engineer, Flexeere: April 1, 2024, to Present**
 - Actively involved in the development of state-of-the-art software solutions, emphasizing advanced, high-tech projects.
 - Contributing to the entire software development cycle, including conceptualization, deployment, and continuous maintenance.
2. **Full Stack Developer, Digilabs: January 15, 2024, to March 15, 2024**
 - Demonstrated adept project management skills by successfully overseeing multiple projects independently.
 - Led client meetings, highlighting exceptional communication and problem-solving proficiencies.
 - Recognized with a certificate of achievement for outstanding performance, alongside commendable remuneration.
3. **Intern, Oasis: October 5, 2023**
 - Created a React-based pizza ordering application, incorporating user authentication and the Razorpay payment system. Implemented a real-time dashboard update feature to enhance the admin-user interaction experience.
